To whom it may concern

I was the owner of a GFC Franchise and it was sending me broke so I contacted Country Fried Chicken to see if they had any ideas on how to increase my turnover. GFC had not been at all helpful - their own interest was in getting royalties paid.

I was absolutely blown away by the difference in attitudes between the two companies. Country Fried Chicken could not be more helpful and the chicken is so very superior to GFC - our trade picked up and we are so happy with the Country Fried Chicken product and company we are opening another outlet in another town.

We would recommend Country Fried Chicken to anybody, the product is great and the people are helpful, friendly and very knowledgeable about their industry.
