

THE COUNTRY FRANCHISING OFFERS CHOLESTEROL FREE CHICKEN FOOD

The Country Franchising offers tasty and delicious chicken products. Chicken varieties of the Fast Food business include fried and roasted country chicken, burgers, fries, potato, coleslaw, gravy, chicken rolls, subs and wraps. The Chicken franchise offers fried country chicken, which comes in big pieces of juicy, real chicken, coated with a special mixture of 13 spices and herbs.

Country Franchising cooks the fried country chicken in 100 per cent cholesterol-free cottonseed oil, which keeps all the flavour and avoids the greasy feel. The fast food business claims that Country Fried Chicken is a hygienic and crispy product with a special taste.

The chicken franchise uses a purpose built automatic fryer instead of pressure cooking. Country Franchising serves its roasted country chicken in segments with a variety of side dishes. The fast food business applies a layer of herbs and spices on the roasted country chicken, which imparts a unique taste to the product.
